Para Medical Courses in medical field are becoming enormously important in Health Care Systems. In India and abroad, in the recent years, there has been a growing need for qualified and well-trained Para Medical personnel who form an integral component of medical profession. To cater the increasing demand for qualified and trained Para Medical workers, it is necessary to provide needed training to the eligible and interested students. There is an acute shortage of Para Medical workers in hospitals all over India and abroad. To solve unemployment problems and the courses we offer would be of great help to all youngsters. Taking this into consideration we have constituted this UPC to control and to conduct the Paramedical Courses. The main functions of the are conducting paramedical courses, grant of Affiliation, regulate admissions and control the functioning of Institutions running Para Medical courses with respect to importing quality education programme and conduction of examinations.
